14. **K-12 Report**

Sara Wicht of Wicht Consulting has begun working with teams of teachers (a K-4 team and a 5-12 Humanities team) to support their work in further integrating principles of identity, diversity, justice and action organically and meaningfully into their curriculum. She will work with a 5-12 STEM team later in

the school year.

K-12 teachers engaged in a session entitled "Using an Equity Literacy Framework to Disrupt School-Based Inequities" during our October 1pm day. Through this session, our faculty and staff discussed how strategies for reaching marginalized students that rely solely on individual interventions give educators permission to ignore systems of inequality, rely on stereotypes and focus on deficits. This professional development addressed how to move from a deficit-based approach to an equity and racial literacy framework for meeting the needs of marginalized students and families. Using a common definition of equity, we as a school will work together to define a shared vision of equity in our practice and school, will commit to uncovering existing inequities and will begin to plan ways to disrupt those current inequitable policies and practices as we move to creating and sustaining equitable policies and practices for all students and their families that move from mitigative short-term changes to transformative long-term solutions.

Taking advantage of our new shared campus, buddy classes have met and begun to develop relationships across the buildings. Many classes met up at the park for outdoor meet and greets including a group of mixed age upper school volunteers and the kindergarteners for a scavenger hunt at the park. One particular highlight was when the 11th and 3rd graders teamed up with Brickz4Kidz to build motorized Lego creations.

The 2022-2023 Hoboken Charter School Lottery Application is now available on the school website. All applications must be submitted online this year via our new lottery system- Lotterease. We hope that this program will make registration easier for families to submit applications. Families who do not have access to a computer or internet are invited to complete the application onsite with the assistance of HCS staff.

Nurse Malik partnered with Rite Aid to host a flu shot clinic for HCS on October 14th.

Our 5 Year Charter Renewal Application and numerous supporting documents has been submitted to the NJDOE's Commissioner's Office, the Hoboken Board of Education and the Hudson County Department of Education.

15. Lower/Middle School Report

4th grade students are now officially in the Beginner Band and are starting to play their new instruments up on the roof.

On Wednesday, October 13th, over 35 Middle School students began official training for our Recess Assistant Program. These student volunteers have been paired with lower school classes to provide friendship and mentorship on the playground as well as to model appropriate school behaviors. The program has begun and has been a big success already.

HCS hosted virtual open house events on October 8th for prospective K-8 families and a successful Back to School Night for our current K-8 families on September 24th. The Back to School Night session started with a presentation by the Executive Director and K-8 Interim Lead on mission-aligned priorities for HCS this school year as well as a presentation from members of the Friends of HCS.

16. Upper School Report

October has been filled with events. We had to rearrange our schedules some for the NJ Start Strong assessments and then again for the College Board. 10th and 11th graders took the PSAT and 12th graders sat for the SAT, offered in school for all students.

Our Girls Volleyball team has been very excited about getting back to practice and games. This rebuilding year is being led by a strong group of seniors. Most schools have not allowed fans to attend the games, so we held a pep rally to celebrate the team and our school spirit.

October is always a month of outreach, and we held a (well attended) virtual Open House as well as numerous Information Sessions for local middle schools. Current students joined these events and were incredible representatives of our school.

Employee Vaccination Policy

HCS has a duty to provide and maintain a workplace and learning environment that is free of known hazards. To safeguard the health of our employees and their families, our students and their families and the community at large from COVID-19 that may be reduced by vaccinations, HCS requires its employees to be fully vaccinated against COVID-19 unless they are entitled to an exemption as described below.

The HCS School Nurse can provide information on how to access the vaccination. Vaccinations should be run through employees' health insurance where applicable and will otherwise be paid for by the School. All employees will be paid for time taken to receive vaccinations. Employees are to work with their building principal to schedule appropriate time to comply with this expectation.

Employees in need of an exemption from this vaccination expectation due to a medical reason or because of a sincerely held religious belief must submit to the School Nurse a completed Request for Accommodation form to begin the interactive accommodation process. Reasonable accommodations will be granted in accordance with the Americans with Disabilities Act and/or the New Jersey Law Against Discrimination where they do not cause Hoboken Charter School undue hardship (e.g., if they would be unduly extensive, substantial, or disruptive, or if they would fundamentally alter the nature or operation of the School or programs) or pose a direct threat to the health and safety of others. No other exemptions shall be available other than the medical and religious exemptions.

Any employees with an approved medical or religious exemption will be required to undergo regular testing at a minimum of once to twice each week.

Employees serving as occupational therapists, physical therapists, speech therapists, school nurses, or athletic trainers must be fully vaccinated as a mandatory condition of their employment. Because physical contact with students is an inherent and unavoidable job duty for these positions in particular, no accommodation or alternative is possible, and these employees will be strictly ineligible for a medical or religious exemption.
