### **K-12 Report**

The HCS Mission and Integration Team led the K-12 faculty and staff in discussions around preparation for the move to a shared campus and continuity of experience for our K-12 students.

Deirdra Grode attended a meeting with the leads of all schools in Hoboken, representatives from the Mayor's office and City Council, the Hoboken Police Department and the Hoboken Fire Department earlier on February 27<sup>th</sup> to discuss coordinated safety and security efforts.

The school has been keeping our families abreast of any developments impacting HCS around COVID-19. Deirdra Grode has been in regular conversations with representatives from the State Departments of Health and Education and has participated in daily calls with the City of Hoboken via the Coronavirus Task Force to inform decision-making around safety and the continuity of programming and services. On March 12<sup>th</sup>, in consultation with the City, the four public school districts of Hoboken, including HCS, decided to move to remote learning for the weeks of March 16 and March 30. Administration, faculty and staff had prepared to continue our instructional program remotely in the case of a school closure and was ready to deploy on March 16<sup>th</sup>.

On February 26, HCS students participated in Pink Shirt Day. This year's theme was "Building Bridges to New Beginnings" which focused on our K-12 locations becoming one. Each student in each class created a t-shirt model that portrayed the message that we are all part of a unique, inclusive school environment.

### **Lower/Middle School Report**

## **A K – 12 SERVICE LEARNING SCHOOL**

On Tuesday, March 3, the Animal Rights Mission Lab had a visitor from the Farm Sanctuary in Upstate New York. The presenter spoke to the work that the sanctuary does to rescue farm animals and students participated in a virtual reality tour of the facility.

On Wednesday, March 4, the kindergarten class had their publishing party where they shared their narrative writing pieces. Also that morning, the fifth grade class shared their own civilizations in fifth grade social studies after learning about the elements of the ancient Mesopotamian civilization.

On Friday, March 6, students from Stevens came to HCS to lead the Lower School in a STEM day. Students were placed into mixed age groups and participated in different STEM-related activities. Seventh grader Narina Girotra has been honored for her exemplary volunteer service with a President's Volunteer Service Award. The award, which recognizes Americans of all ages who have volunteered significant amounts of their time to their communities and their country, was granted by the Prudential Spirit of Community Awards program. HCS nominated Narina for national honors this fall in recognition of her volunteer service. In the Spring of 2019, Narina started a project on air quality and took action by measuring the air quality in Hoboken. She presented the data to HCS and shared it with her city council representative, who in turn asked her to present the research to the entire Hoboken City Council.

Several of our Lower and Middle School classes have participated in experiential field trips outside of the classroom:

- Middle School mathletes participated in the MoMathon
- The third and fourth grade visited Lincoln Center

### **Upper School Report**

We work hard in the Upper School grades to help expose students to the many options available to them after graduation. On Monday, March 2nd, the 10th and 11th grades attended a College and Career Fair with their class advisors and the College and Career Advisor. The 9th graders met during the same time with the Hoboken Police Department to learn about the Junior Police Academy program. The 12th graders continue to meet with Ms. Polak one on one as they complete college applications and work to understand the differences between their many acceptances and aid packages.

Many planned field trips and events have been postponed due to cautions regarding COVID-19. The Teens Talk About Racism has been rescheduled for May, the students from Stevens Institute of Technology who were coming to lead STEM 150for150 workshops are hoping to be able to come later this year.
